N. B. Special attention is called to the various abbreviations occasionally used in this catalogue, to indicate the condition or state of preservation of the pieces offered. BFR Barely fair; VFR Very fair; G Good; VG Very good; F Fine; VF Very fine; EF Extra fine; PF Proof.

Copies of this Catalogue, giving prices realized, neatly executed in red ink, 50c. Cash with order. Acquaint yourself with the prevailing rates for coins, etc. Many collectors order them.

In the matter of Coin Collecting, there is no outlay of funds that brings equal satisfaction, to that expended for priced catalogues of current sales.

Coins and Medals are sold at so much per piece. Kindly make your bids accordingly. Do not bid by the lot. If a lot contains 10 pieces and you desire to offer \$2.00 for it, make your bid 20c.

My terms for buying are 5 per cent.

Auction Sales are strictly for cash. Parties unknown to me must send a deposit covering at least 25 per cent. of their bids, otherwise they will not be accepted.

Collectors with experience have found that all catalogues and all sales are not alike.

My attributions will be found accurate, descriptions ample for recognition and the grading of condition, fair and just, with an absence of lottery throughout the catalogue, also a sparing, appropriate and justified use, of the word rare. Special care and attention to these important matters, featured my first coin sale catalogue and it has been uniformly maintained in all of my one hundred and ninety-six public sales.

-----	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

While active collecting of the Canadian series has continued for upwards of sixty years, this unique token, remains unpublished up to date. The reverse being the same as Breton 992, failure to turn the piece to view its usual obverse, may account for its earlier escape from recognition. I must believe its rarity to be excelled by none in the Canadian series.

Imitations, fabrications and other false pieces, by casting, electrotyping and from dies in solid metal.

The following copies, mostly of the very rare types, are rather reluctantly offered, but the extent of those before me, with the perfect reproduction of many, caused me to hesitate, when at the point of my usual exclusion of all false issues. Whatever may be entertained against them, they still retain an irresistible charm and an admiration for their artistic beauty and the unusual event or issue they represent. Not all were produced under the auspices of fraud and deception, better motives were behind the most of them. Many of the same class have always been in my possession, for illustration, study and comparison. Others who are interested for like purposes, may also wish to have them, therefore, they are admitted here.

- 333 1861 Half Dollar, O mint. Extra fine. Louisiana seceded Jan. 25th 1861. It is related, that the state turned over the mint to the Confederate Government, the last of Feb. although it is not quite clear how the commonwealth acquired property belonging to the U. S.

It is perfectly safe to assert that whatever of the metals for coining, were in N. O. on the 1st of Jan.—or thereafter—went into the coffers of the Confederacy. 330,000 Half Dollars were minted up to April 30th, when the establishment closed for want of material to continue its operation. The precious metal had a large purchasing power, therefore, it rapidly passed out of their domains, as did our own gold and silver.
